Certificate regarding asbestos in Alfa Laval Marine & Diesel Division equipment

Reference is made to the IMO Res. MSC.282 (6), adopting SOLAS II-1/A 3-5 (SOLAS 2009 Amendment) and the total prohibition of the use of Asbestos in installations on board all ships as of 1st January 2011 and onwards. Due to this regulation Alfa Laval Marine & Diesel Division hereby certify the following, based upon our best knowledge and the information available today.

We declare that we fully comply with this resolution.

We declare that all our products/equipment/materials/components have been designed, engineered, purchased, manufactured and packed to be free from Asbestos.

For the avoidance of doubt, by reference to Asbestos we refer to the following six minerals:

- | | |
|------------------------|----------------|
| 1. Actinolite | CAS 77536-66-4 |
| 2. Amosite (Grunerite) | CAS 12172-73-5 |
| 3. Anthophyllite | CAS 77536-67-5 |
| 4. Chrysotile | CAS 12001-29-5 |
| 5. Crocidolite | CAS 12001-28-4 |
| 6. Asbestos Tremolite | CAS 77536-68-6 |

The stated CAS-numbers are consistent with OSHA's, the EU's and USCG/EPA's definition of Asbestos.

Yours sincerely

Alfa Laval
